

Newly Launched Functional Services Provider and Resourcing Company, Wright Avenue Partners, Announces Key Appointment

May 9, 2016

Cary, North Carolina; May 9, 2016 – Wright Avenue Partners, a Functional Service Provider and resourcing solutions company based in Cary, North Carolina announces the appointment of Michael Molter as Director of Statistical Programming and Technology.

Wright Avenue CEO and Founder Bill Donovan states, “With the company launch in 2015 and the recent growth of our organization, Mike will make an excellent addition to our team allowing us to increase our service offerings and provide improved support to our clients.”

Molter brings 16 years of professional SAS experience to the team having worked within several therapeutic areas including Oncology, Digestive Systems Disorders, Disease of the Central Nervous Systems and more. He will play a key role in the growth, development and management of Wright Avenue’s statistical programming team.

Molter received his Bachelor of Mathematics and Master of Mathematics from Western Michigan University. Prior to Wright Avenue, Molter worked as Senior Consultant for a range of clients where he acted as technical lead for client engagements including implementation of clinical data standards using both CDISC and corporate standards.

Wright Avenue continues to build a team of top notch professionals to best fit the vision and capabilities of the company. Bill Donovan states, “We are happy to welcome Mike to the Wright Avenue team and look forward to future growth in the coming year.”
